ABSTRACT

The objective was to encourage people to plant trees at home and help the environment, without the need for organizing a large public gathering.

PROJECT NEED ASSESSMENT

Benefiting Community	Participating members and local community
Identified Community Need	While reforestation is critical for the local ecosystem, traditional large-scale planting events are often difficult to organize due to the scarcity of available public land and the high cost of coordinating transport for large groups. There was a clear need for a more accessible, convenient way for individuals to contribute to environmental conservation.
Service Opportunity	Implementing a digital planting campaign that empowers people to take part in by planting trees in their own gardens, thereby overcoming barriers of traditional planting or reforestation projects.
Mode of Data Collection	Through photographs sent by participants

SERVICE CONTEST FORM

Project Title	EarthBoost
Project Hosted By	Centennial Richmond College
Other Organizing Clubs	
Project Categories	1.Best Project for the Environment
Date	2026-04-30
Venue	Online Project
Chief Guest	
Project Chairman	Leo Mevinu Gamage
Project Secretary	Leo Minuda Kalansooriya
Project Treasurer	Leo Sadeepa Weerasinghe
No. of Beneficiaries	1500
Project Value	0.00 LKR
Mode of Funds Raised	
Participants	Leos: 10 Outsiders: 12
Service Hours	11
Project Objective	The objective was to encourage people to plant trees at home and help the environment, without the need for organizing a large public gathering.
Project Description	Planting trees is important for the environment, but organizing big group events is often hard because finding public land and transport is difficult. We started project "EarthBoost" as an online campaign to let people help nature directly from their own homes. On April 30, 2026, we held the project digitally. The biggest challenge was making sure people actually planted the trees since we weren't there to see it in person. To fix this, we asked every participant to send us a photo of them planting their sapling as proof. Our club members also joined in by planting trees in their own gardens. By the end of the day, 100 new trees were planted across various home gardens. EarthBoost was a success because it made environmental work simple and easy for everyone

TREASURER REPORT

	Record ID	Value (LKR)
Income		
Total Income		0.00
Expenses		
Total Expenses		0.00

Note: Record ID is related to online administration system (MYLEO) of Leo Multiple District 306, Sri Lanka.
