ABSTRACT

Our objective for 'Stop Swap' was to renovate the Kumarakanda Bus Stop to provide a safe and reliable shelter for the commuters. By reroofing and restoring the facility, we aimed to eliminate the inconvenience faced by commuters during adverse weather conditions and improve the overall safety of this public asset.

PROJECT NEED ASSESSMENT

Benefiting Community	Daily commuters and residents of the Kumarakanda area.
Identified Community Need	Commuters needed a safe shelter. The existing bus stop had lost its roof and was heavily vandalized, leaving people completely exposed to the rain and sun while waiting.
Service Opportunity	Renovating a vital piece of local transit infrastructure by re-roofing and cleaning the shelter to improve daily life for the public.
Mode of Data Collection	Direct observation of the physical deterioration of the bus stop and recognizing the daily struggle of commuters due to that.

Project Objective	Our objective for 'Stop Swap' was to renovate the Kumarakanda Bus Stop to provide a safe and reliable shelter for the commuters. By reroofing and restoring the facility, we aimed to eliminate the inconvenience faced by commuters during adverse weather conditions and improve the overall safety of this public asset.
Project Description	The Kumarakanda Bus Stop is a transit hub for local residents. However, the existing structure was in a severe state of disrepair and vandalism. The roof was missing and no longer provided protection from the rain and walls were filled with graffiti. This left daily commuters exposed to the elements, making the simple act of waiting for a bus an tiring and often uncomfortable experience. This project was selected because we couldn't ignore how bad the bus stop had gotten. After observing the sorrowful state and clear physical deterioration of the Kumarakanda Bus Stop, we decided that a renovation could restore the facility's functionality and serve hundreds of people daily The renovation was carried out on April 21st, 2026. The process began with the scrubbing off of graffiti. Our members then worked alongside local supporters to install the new roofing. Afterwards, we performed a deep clean of the

interior and exterior walls and floor, preparing the site for public use.
